ABOUT GSST 2026

The Global Surgical Science & Technology Conference (GSST 2026) will be held from October 26–28, 2026, in Boston, Massachusetts, USA, with an online participation option for global attendees. This premier event aims to unite surgeons, medical researchers, healthcare professionals, biomedical engineers, and industry innovators to discuss the latest breakthroughs in surgical science, medical technology, and clinical practice. GSST 2026 will serve as a collaborative platform to share pioneering research, explore advanced surgical tools and techniques, and address key challenges shaping the future of surgical care.

The conference will feature plenary sessions, keynote addresses, hands-on workshops, and interactive panel discussions covering topics such as minimally invasive and robotic surgery, digital and AI-assisted surgical innovations, tissue engineering, surgical oncology, regenerative medicine, and advancements in perioperative care. GSST 2026 provides an exceptional opportunity to foster professional growth, exchange interdisciplinary ideas, and build global networks that drive innovation in surgical education and technology integration. Whether attending in-person in Boston or virtually, participants will gain valuable insights into the evolving landscape of surgery and its transformative impact on global healthcare.
